Introduction to Git

UNIVERSITY OF MARYLAND / **FEARLESS IDEAS**

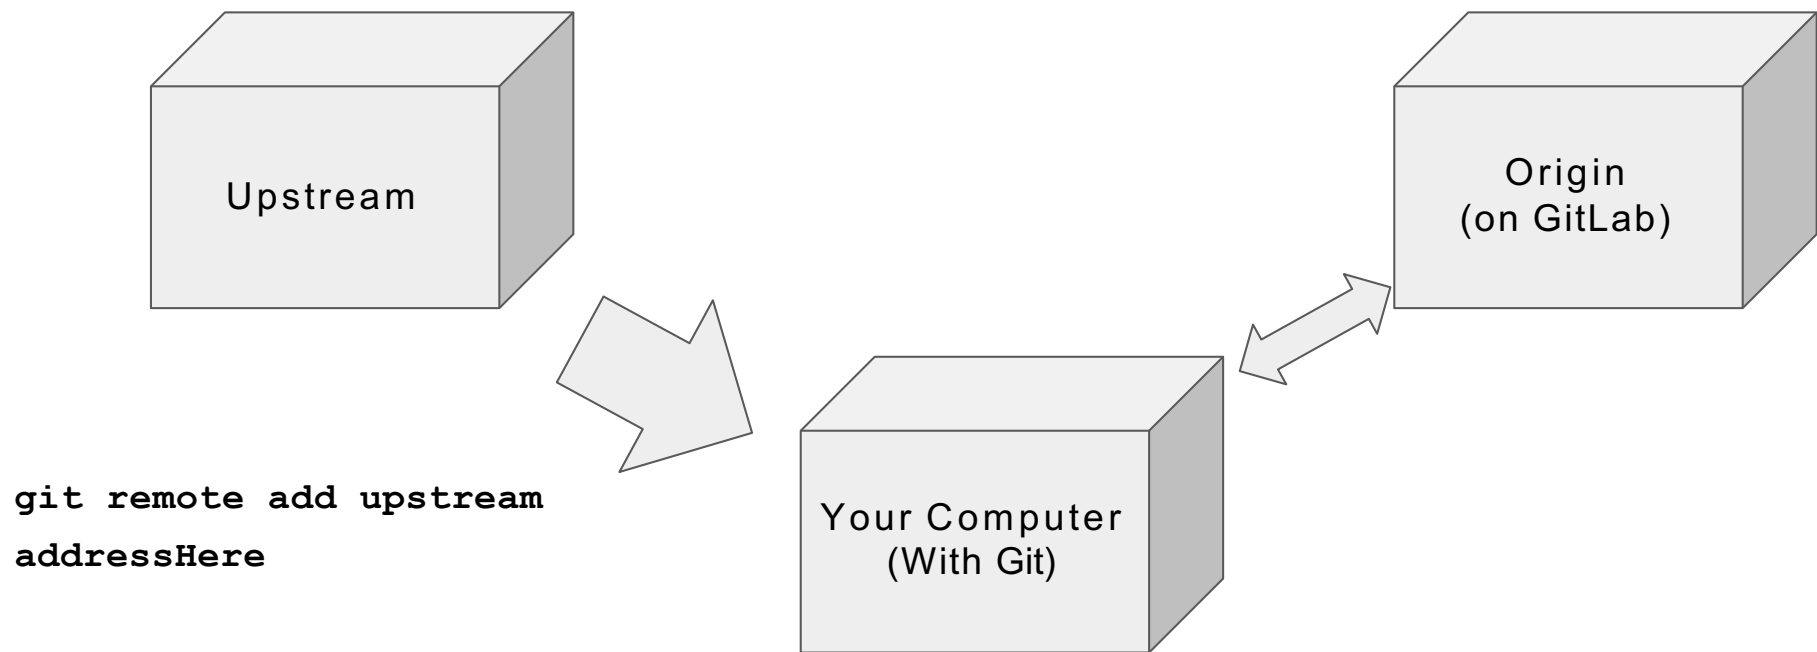

What are we doing here?

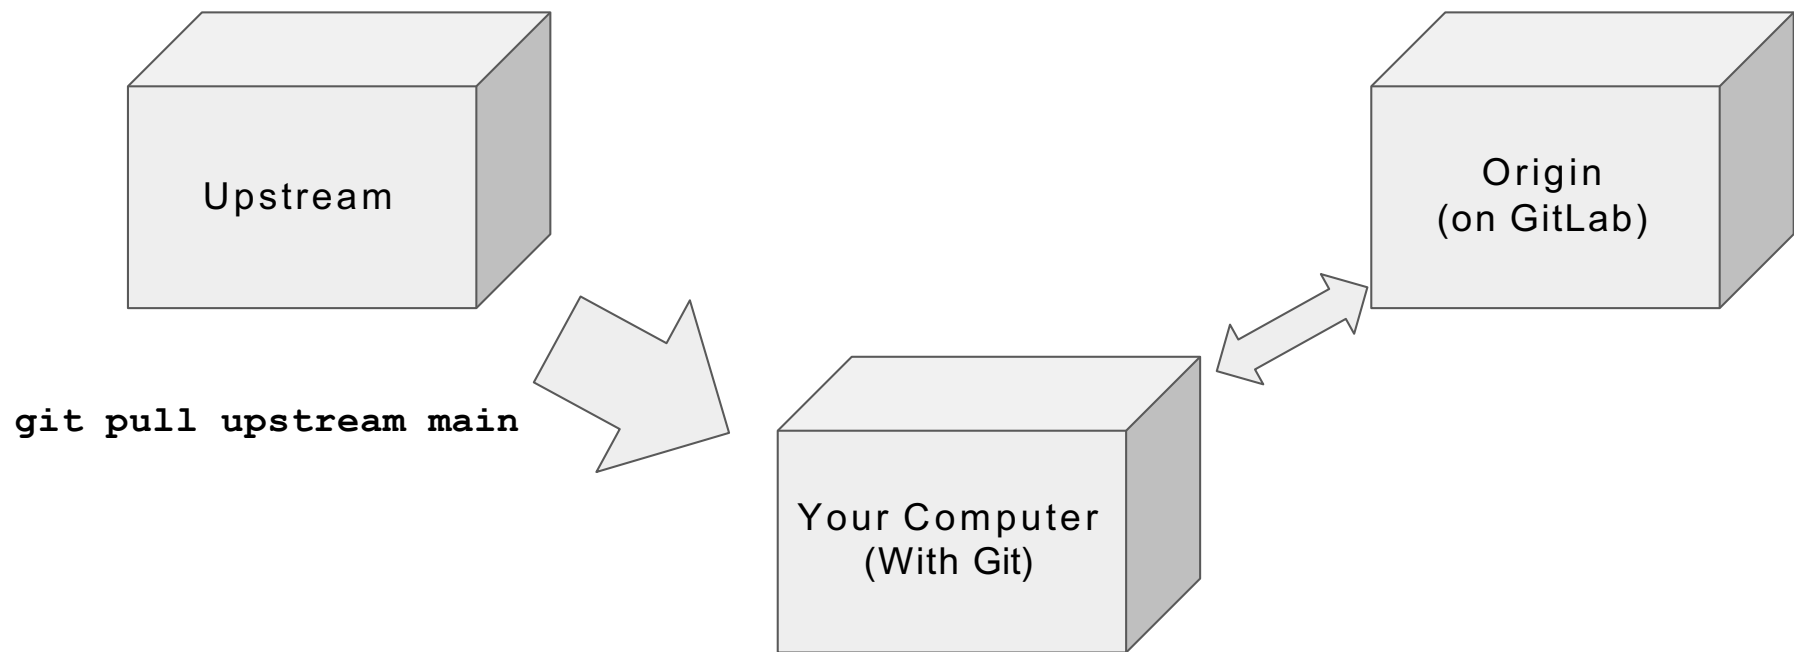

What are we doing here?

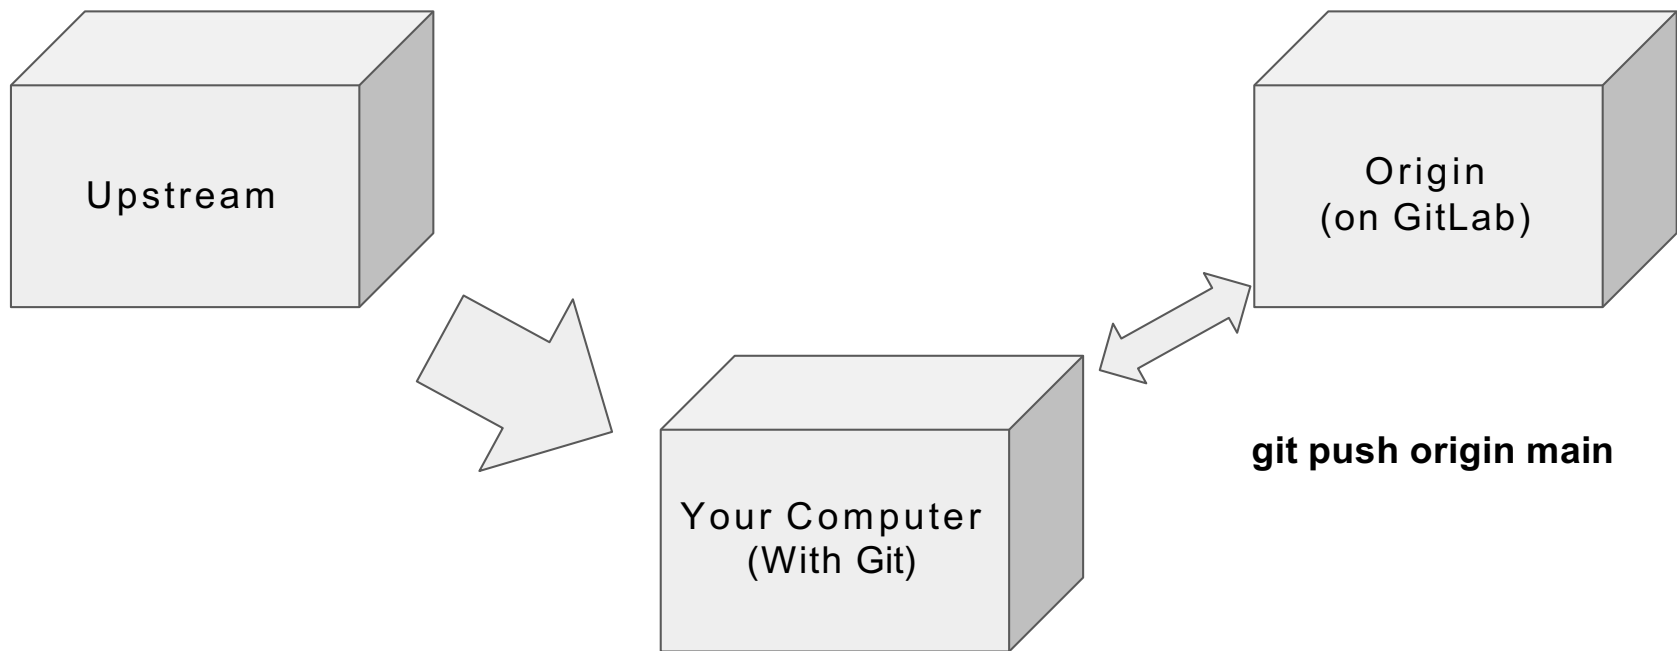

What are we doing here?

What are we doing here?

What are we doing here?

Important commands

git status → To see if there are any changes to commit

Important commands

`git status` → To see if there are any changes to commit

`git fetch upstream main` → See if there is anything to pull

`git pull upstream main` → Actually pulling from upstream

How To Turn Stuff in!

Once you have origin and upstream set up:

```
git status
```

```
git add filesToCommit //(or --all)
```

```
git commit -m "Modified the README"
```

```
git push origin main
```
